EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Theresa Wiant on November 8, 2004.

The application has been amended as follows:

Claim 10, line 1, "10" has been changed to --9--.

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art fails to teach and/or make obvious a portable measuring probe comprising a spike fixed to a shaft and a transducer in contact with the shaft for detecting stress waves imparted thereto, wherein a handle is slideably coupled to the shaft. The prior art further fails to teach the use of such a measuring probe in a system for testing wood products, wherein the travel time of a stress wave from one such probe to another probe is determined.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2856

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Harris teaches a measuring probe for testing wooden poles comprising a pointed tip 66 and a transducer 68 in Fig. 4 and further teaches operatively associating the transducer with a pole at an effective angle of 30 degrees or so (col. 3, lines 64-68). Schafer et al. discloses a measuring probe for testing a wooden member 10 in Fig. 19 comprising a spike portion 92 and a transducer 16, wherein a bi-directional hydraulic or air cylinder 96 moves the transducer toward the wooden member.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John E Chapman whose telephone number is (571) 272-2191. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on (571) 272-2208. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
